Career Objective

An engineering fresher who is a self-starter and capable to use technical skills for the betterment of the organization. A Bachelor of Engineering in Computer Science and Engineering has enhanced my proficiency in developing web applications and looking forward to working in a competitive environment that enhances overall learning. I have also completed many projects based on programming languages. I also have good knowledge of DSA and problem-solving

Education

Savitribai Phule Pune University

Bachelor of Engineering in Computer Science | CGPA 8.88

Jun 2019 - Present

Pune, Maharashtra

HSC(Maharashtra State Board)

New English School and Junior College Sakri | Percentage 60

June 2018 - July 2019

Sakri, Maharashtra

SSC(Maharashtra State Board)

New English School and Junior College Sakri | Percentage 84

Jun 2016 - July 2017

Sakri, Maharashtra

Experience

LetsGrowMORE

April 2022 - jun 2022

Data Science Intern

- Engineered a machine learning model using Python and TensorFlow to classify Iris flower species with 97 percent accuracy; laid the foundation for future predictive analytics projects.
- Image to Pencil Sketch with Python: We need to read the image in RBG format and then convert it to a grayscale image. This will turn an image into a classic black-and-white photo
- Currently, we have an opportunity for Distribution Engineer for electric utility design engineering. This position will be working on Data Science using Python.

Oasis Infobyte

March 2022 - April 2022

Web Developer Intern

- I can create a personal portfolio with basic skills in CSS and HTML. One of the most common projects in web development for beginners. In a personal portfolio
- Create a full stack app using React, MongoDB, and Nodejs. Create an admin login and a user login with complete registration, authorization, email verification, and forgot password system. After logging in, users should be able to view the available pizza varieties in the dashboard.

Projects

Netflix Clone | React, NodeJS, Redux Toolkit, MongoDB

November 2022

- A Netflix clone built using React, Express js, And Mongo DB (The Movie Database) It also displays movie trailers.
- React has become very popular among developers who use NodeJS and numerous other related JS frameworks/tools.

Language Learning App | HTML, CSS, Javascript

September 2022

- It turns out that behind some of the best E-Learning platforms, there are great high-tech educational apps.
- It is learning the application using HTML, CSS, and javascript.

Sorting Algorithm Visualizer | React, node JS

june 2022

- React application to display step by step output of five sorting algorithms including Merge Sort, Quick Sort, Insertion Sort, Selection Sort and Bubble Sort, based on user input.
- This project in which I looked after algorithms and rendering of output.

Technical Skills

Languages: Python, Java, C/C++, HTML/CSS, JavaScript, SQL, MongoDB.

Developer Tools: VS Code, Eclipse, Google Cloud Platform.

Technologies/Frameworks: Linux, Git, GitHub, React JS, Node JS, Cobal Bootstrap, Mainfranes.

Relevant Coursework: Data Structures And Algorithm, Object-Oriented Programming, Database Management System

Ceritificates

Course Learning Java 11 - Certification Course - LinkedIn (10/2022 - 11/2022).

Programming for Everybody (Getting Started with Python) - Coursera (08/2021 - 09/2021).

Html, JavaScript, Bootstrap - Certification Course - Udemy (11/2021 - 12/2021).
